

IT-SECURITY CONFERENCE OCT 2026

Taking place on **October 8, 2026**, in Lisbon, the fifth edition of the IT Security Conference will cover top-level content and thought leadership discussions regarding the Cyber Security, Cyber Risk, Cyber Resilience & Cloud ecosystem. The success of previous 4 editions, sold out weeks before their occurrence, has prompted the organization to seek to expand this event to an increasing number of IT Security readers who wish to participate.

In 2025, the number of registration requests from readers reached 1.350, for an auditorium capacity of 360 seats, plus a Technical Tracks Auditorium of 120 seats. Considering that, the 2026 event will be designed for an audience of 500 attendees, including Chief Information Security Officers, Chief Security Officers, Chief Information Officers, Chief Security Architects, Heads of Information Security, Chief Compliance Officers, Privacy Officers and Data Protection Specialists.

Conference key topics

Presented in a series of top-level keynotes, interactive panel discussions and solution-based case studies.

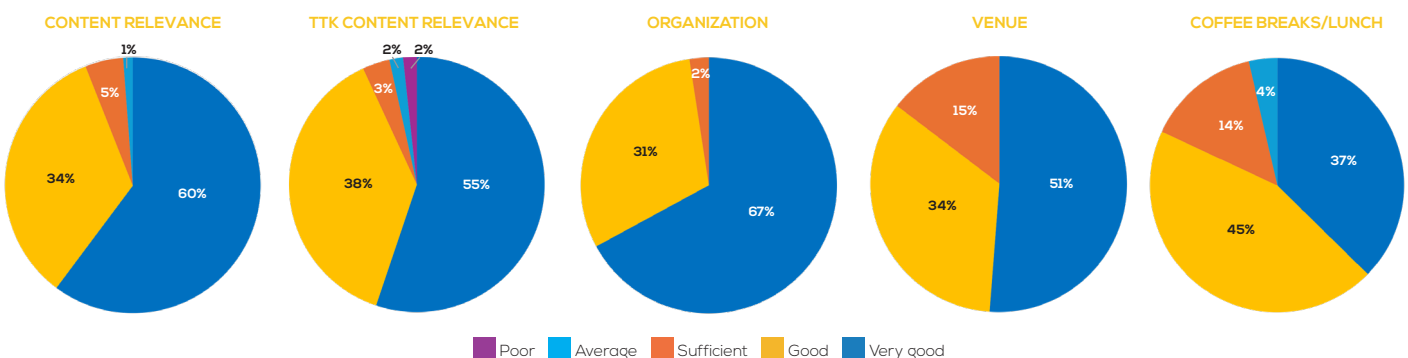

Focused on learning and building partnerships in the emerging cyber security and cloud space.

CISO and security professionals will share their expertise and knowledge, their best practices and how they address the current cyberthreat landscape.

Key topics include CISO success, cloud security, risk & governance, cyber resilience, security ROI, how to communicate a cyberattack, strategic planning, as well as privacy and GDPR, trust, identity and data security.

IT Security Conference 2025 Satisfaction Survey
